Dock & Door Industry Updates

- ◆ **Safety First:** As winter conditions continue, dock and door equipment is at higher risk for damage due to freezing temperatures and increased wear. **Encourage customers to schedule preventative maintenance** to avoid costly breakdowns.
- ◆ **New Regulations Alert:** The industry is seeing **stricter compliance measures** for dock safety, particularly in high-traffic warehouses. If you notice customers with outdated or non-compliant equipment, remind them about our upgrade options!
- ◆ **Growing Demand for Automation:** More businesses are investing in automated dock and door solutions to improve efficiency and reduce labor costs. If customers are interested, let them know **we can help with modern solutions** tailored to their needs.

Looking Ahead SOON

**We will have Staff Training on the 21st of this month!
Keep a look out for the details with Mid & Emmett**

Let's keep up the momentum this month! If you have any ideas, updates, or suggestions, don't hesitate to share them.

Thank you all for your hard work and dedication—let's make February a great month!
